PROFILE

Industrial chemist turned builder, working where software meets money. I'm an account officer at GTBank, handling account and KYC documentation, treasury bills, loans, trade facilities and Form M. Alongside that, I build production web products end to end with Next.js, TypeScript, Supabase and Paystack, including a live multi-sided marketplace, client websites, AI document agents and paper-trading systems. I'm detail-oriented and process-disciplined, with a background in laboratory and HSEQ compliance.

EXPERIENCE

Account Officer · Guaranty Trust Bank (GTBank) — Sept 2025 – Present

- Provide administrative and transactional support across 150+ retail and SME customer accounts, ensuring 98% documentation accuracy.
- Review and validate 10+ account documentation and KYC records weekly to maintain full regulatory compliance.
- Support treasury-bill documentation and loan and credit documentation packaging, plus trade facilities and Form M processing.
- Maintain organised digital and physical records, reducing document retrieval time by 25%. Excel-based request tracking improved turnaround by 20%.
- Resolve client issues, with 95% resolved within standard service timelines. Generate weekly and monthly account data reports.

Founder & Full-stack Engineer · One Ocean · oneocean.com.ng — June 2026 – Present

- Building a multi-sided Nigerian marketplace solo with Next.js, TypeScript, Tailwind, Supabase (Postgres with row-level security), Paystack, Resend and the Gemini API.
- Shipped seller onboarding and verification, store and product management with variants, an AI listing assistant and automatic prohibited-item screening.
- Designed escrow basket checkout, commission and refund rules, and delivery coverage by category and area.

Laboratory Scientist · African Circle Pollution Management Limited — 2025

- Maintained controlled documentation of monthly laboratory test results and compliance records, and analysed chemical test data.
- Supported regulatory and safety documentation with zero major compliance breaches, and helped build audit-ready lab record systems.

HSEQ Support Officer (NYSC) · African Circle Pollution Management Limited — 2024

- Conducted 30+ safety inspections and checklist reports, keeping inspection documentation 100% complete.
- Assisted document control for HSEQ and ISO requirements. Compliance reporting cut repeat non-compliance cases by 15%.

SELECTED PROJECTS & HACKATHONS

Form M Copilot: AI agent that reads photographed import documents, cross-checks them and drafts a Form M. Runs on Meta open-weight models, with a WhatsApp bot. Meta Global AI Developer Hackathon 2026. form-m-copilot.vercel.app

Client websites: Gusto Nigeria (Paystack reservations, WhatsApp routing, 14-category menu) and Emperor Oni'panu N More (WhatsApp ordering, AI chatbot, Paystack-ready cart).

Prediction-Market Latency Bot: Python paper-trading bot with a CoinGecko price feed, Half-Kelly position sizing and a monitoring dashboard.

KudiDesk: PayPal and AI for small African merchants. PayPal AI Hackathon 2026, in progress.

EDUCATION

B.Sc. Industrial Chemistry · Bayero University, Kano 2018 – 2023

CGPA 3.98

CERTIFICATIONS

- Google Data Analytics: Foundations: Data, Data, Everywhere
